Education

Bachelor of Applied Science and Engineering

Sept 2021 – Apr 2026

University of Toronto, Toronto, ON

- **Mechanical Engineering + PEY Co-op | Minor: Engineering Business**

Related coursework: Mechanical Engineering Design | Fundamentals of Computer Programming (Python)

Technical Skills and Qualifications

Microsoft Office Suite | Minitab | Onshape | AutoCAD | SolidWorks | Python | MATLAB | CSS/HTML | Time Management | Collaboration | Critical Analysis | Technical Documentation |

Professional Experience

Mechanical Engineering Intern (Special Projects)

May 2024 – May 2025

AGS Automotive Systems | Oshawa, ON

- Developed over 20 new part and process models using SolidWorks, improving production efficiency and accuracy
- Updated schematic drawings in AutoCAD to ensure consistency across production projects
- Analyzed time data using the MOST Technique, achieving a 15% reduction in process times for key workflows
- Conducted quality audits on over 50 steel bundles per week, ensuring compliance with company standards
- Performed process improvement analysis in Excel, supporting workflow enhancements and data-driven decision making

Design Engineering Intern

May 2023 – Aug 2023

Parts Apart | Toronto, ON

- Conducted the end-to-end development of a product, overseeing 4 stages of the product development lifecycle
- Performed extensive market research to identify and define a target niche, one that impacts 40% of the population
- Employed computer-aided design (CAD) and manufacturing processes to develop and enhance prototypes
- Collaborated closely with the company founder to transform the concept into a tangible product, costing under \$50

Projects and Extra-Curriculars

Communications Manager & Project Team Member

Jan 2022 – Apr 2022

Engineering Strategies and Practice II (Course) | University of Toronto

- Spearheaded the development of a design project for a prominent client, a professor seeking a device for the course: *Six Sigma for Engineers*
- Responsible for handling all communication between the client and the team, improving turnaround time by 20%
- Helped design and prototype a hands-on educational device to teach DMAIC principles

Miniature Pneumatic Engine

Nov 2022 (Project)

George Brown College Machining

- Learned how to use various machines such as a lathe, mill, drill press, and grinder to create a functional engine
- Gained important knowledge on efficiency of design, relating to feed rates, cutting speeds and safety

Handmade Coffee Table & Jewellery Box

Dec 2018 (Project)

Meadowvale Secondary School

- Mastered how to use machines like a band saw and belt-sander to turn a plank of wood into a project-ready piece
- Designed and assembled functional wooden pieces with attention to detail, symmetry, and finishing techniques

Awards & Certifications

Secondary School Valedictorian | Ontario Scholar | Basic Machining (George Brown) | SolidWorks Associate (CWSA) |
