

Mohid Tahir

Mechanical Engineer

☎ +1 (647) 778-8676 ✉ mohid.tahir@mail.utoronto.ca 🌐 mohidtahir.ca 🔗 [linkedin.com/in/mohid-tahir](https://www.linkedin.com/in/mohid-tahir)

Education

University of Toronto

Sep. 2021 – Apr. 2026

Bachelor of Applied Science and Engineering

Toronto, ON

- Program: Mechanical Engineering + PEY Co-op, Minor: Engineering Business, Certificate: EV Design
- Related Coursework: Mechanical Engineering Design, Kinematics and Dynamics of Machines, Electric Vehicle Design, Analog and Digital Electronics, Design for the Environment

Technical Skills and Qualifications

Process & Analysis: Six Sigma DMAIC, MOST Work Measurement, Lean, Root Cause Analysis, Continuous Improvement, Life Cycle Assessment (LCA), NPV Modeling, Cost-Benefit Analysis, Weighted Decision Matrices

Software & Tools: Microsoft Excel (advanced), Minitab, SolidWorks, AutoCAD, Microsoft Office Suite, Python, MATLAB

Documentation & Collaboration: Engineering Drawings, SOPs, Technical Documentation, Stakeholder Reporting, Cross-Functional Collaboration

Professional Experience

Mechanical Engineering Intern (Special Projects)

May 2024 – Aug. 2025

AGS Automotive Systems

Oshawa, ON

- Modeled 20+ bracket, fixture, and process assemblies in SolidWorks with GD&T-compliant drawings, supporting active production programs across the plant
- Applied the MOST (Maynard Operation Sequence Technique) method to benchmark cycle times on key workflows, identifying changes that cut process time by 15%
- Built Excel tracking models to visualize process metrics and present recommendations to engineering leads, turning time-study data into actionable layout and tooling changes
- Audited 50+ steel bundles per week against internal specifications, flagging dimensional and surface defects before downstream processing

Design Engineering Intern

May 2023 – Aug. 2023

Parts Apart

Toronto, ON

- Designed a coffee mug with a convertible handle (top-mounted for stacking, side-mounted for drinking) end-to-end as the sole design engineer on a two-person team, working directly with the founder across discovery, CAD, prototyping, and user testing
- Scoped a target user segment affecting roughly 40% of the population through customer interviews and secondary research, sharpening product positioning before CAD work

Communications Manager & Project Team Member

Jan. 2022 – Apr. 2022

Engineering Strategies and Practice II (APS112) - University of Toronto

Toronto, ON

- Served as the single point of contact between a faculty client and a 5-person design team building a teaching device for the course: Six Sigma for Engineers (DMAIC)
- Shortened feedback to revision cycles by roughly 20% through structured weekly touchpoints and a shared requirements log, translating client input into engineering action items

Projects

Low-Speed PMSG for Vertical Axis Wind Turbine

Sep. 2025 – Apr. 2026

Capstone Design (MIE490/491), Client: UTWind

University of Toronto

- Managed end-to-end generator design for a real external client (UTWind), coordinating across a team from concept through simulation to fabrication-ready procurement specs, delivering against a defined external deadline
- Screened four generator architectures using a weighted decision matrix, documenting trade-offs and presenting the recommendation to a non-technical stakeholder audience

Awards & Certifications

Dean's Honours List, Certified SolidWorks Associate (CSWA), Basic Machining Certification (George Brown College), University of Toronto Skule Frosh Leader
